Re: Trustee Area Creation Maps and Presentation for April 12, 2022 Board Meeting

Dear Mr. Grace,

Attached please corrected copies of the three (3) previously submitted conceptual Director Area map scenarios and a corrected copy of the PowerPoint presentation reflecting an update described below. After submission of these documents in advance of the April 12, 2022 Board Meeting for SSCSD, the following was brought to our attention:

- **The labels and data tables initially included for Director Area "D" and Director Area "TBD" had been inadvertently switched.**

In the interest of transparency and to remedy the original error, we are providing you corrected copies of the three (3) conceptual Director Area maps along with a corrected PowerPoint presentation at this time. We will be sharing this with the Board and the Community during tomorrow's meeting. Thank you.

Best Regards,

David Lopez
