#### INDEPENDENT AUDITORS' REPORT

To the Board of Directors San Simeon Community Services District San Simeon, CA

## Report on the Financial Statements

We have audited the accompanying basic financial statements of San Simeon Community Services District (District) as of and for the fiscal year ended June 30, 2015, and the related notes to the basic financial statements, as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### **Opinion**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the of the San Simeon Community Services District, as of June 30, 2015, and the respective changes in financial position and cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

#### **Other Matters**

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

## Other Information

Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the District's basic financial statements. The introductory section and the schedules of revenues, expenses, and changes in net position by function on pages 14 and 15 are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The schedules of revenues, expenses, and changes in net position by function is the responsibility of management and were derived from and related directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basis financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedules of revenues, expenses, and changes in net position by function are fairly stated in all material respects in relation to the basic financial statements as a whole.

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

#### Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated January 20, 2016, on our consideration of the San Simeon Community Services District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the District's internal control over financial reporting and compliance.

## Report on Summarized Comparative Information

We have previously audited the District's basic financial statements as of and for the fiscal year ended June 30, 2014, and our report dated February 1, 2015, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the fiscal year ended June 30, 2014, is consistent, in all material respects, with the audited financial statements from which it has been derived.

### NOTE 1 – NATURE OF DISTRICT

San Simeon Community Services District (the "District") is a political subdivision of the State of California and operates under a council form of government. The District administers the following community services as provided by its charter: water, sanitation, streets, lighting and general and administrative services.

The District is a Community Services District as defined under State Code Section: 61000. A Community Services District is a public agency (State Code Section: 12463.1) which is a State instrumentality (State Code Section: 23706). State instrumentalities are exempt from federal and state income taxes.

There are no component units included in this report which meet the criteria of the Governmental Accounting Standards Board (GASB) Statement No. 14, *The Financial Reporting Entity*, as amended by GASB Statements No. 39 and No. 61.

## NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

- A. <u>Accounting Policies</u> The accounting policies of the District conform with accounting principles generally accepted in the United States of America as prescribed by the Governmental Accounting Standards Board (GASB) and the American Institute of Certified Public Accountants (AICPA).
- B. <u>Basis of Accounting</u> The District is organized as an Enterprise Fund and follows the accrual method of accounting, whereby revenues are recorded as earned, and expenses are recorded when incurred.
- C. <u>Budget</u> Although a budget is adopted annually, it is used primarily as a guideline for the Board in regulating expenditures. There is no legal requirement to stay within the adopted budget in the payment or classification of expenditures.
- D. <u>Cash and Cash Equivalents</u> Cash and cash equivalents consist of cash on hand and in banks and short-term, highly liquid investments with a maturity of three months or less, which include money market funds, cash management pools in County Treasury and the state Local Agency Investment Fund (LAIF). Cash held in the county and state pooled funds is carried at cost, which approximates fair value. Interest earned is deposited quarterly into the participant's fund. Any investment losses are proportionately shared by all funds in the pool. The County is authorized to deposit cash and invest excess funds by California Government Code Section 53648 et seq. The funds maintained by the County are either secured by federal depository insurance or are collateralized.
- E. <u>Property, Plant and Equipment</u> Capital assets purchased by the District are recorded at cost. Contributed or donated capital assets are recorded at fair value when acquired.
- F. <u>Depreciation</u> Capital assets purchased by the District are depreciated over their estimated useful lives (ranging from 5-50 years) under the straight-line method of depreciation.
- G. Receivables The District did not experience any significant bad debt losses; accordingly, no provision has been made for doubtful accounts, and accounts receivable is shown at full value.
- H. <u>Encumbrances</u> Encumbrances represent commitments related to unperformed contracts for goods or services. Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of resources are recorded to reserve that portion of the applicable appropriation, is not utilized by the District.
- I. <u>Customer Deposits</u> Customer deposits are recorded as a liability of the District. The District requires an advance deposit of \$50 for new customers.
- J. <u>Net Position</u> GASB Statement No. 63 requires that the difference between assets added to the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as either net investment in capital assets, restricted, or unrestricted.

### NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- J. Net Position (Continued) Net investment in capital assets consist of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. Restricted net position is the net position that has external constraints placed on them by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of net investment in capital assets or restricted net position.
- K. <u>Estimates</u> The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America, as prescribed by the GASB and the AICPA, requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.
- L. <u>Comparative Data/Total Only</u> Comparative total data for the prior fiscal year has been presented in certain accompanying financial statements in order to provide an understanding of the changes in the District's financial position, operations, and cash flows. Also, certain prior fiscal amounts have been reclassified to conform to the current fiscal year financial statements presentation.

#### **NOTE 3 - CASH AND INVESTMENTS**

Investments are carried at fair value. On June 30, 2015, the District had the following cash and temporary investments on hand:

Petty cash		\$ 150
Cash in bank		860,273
Investments		 518
	Total cash and investments	\$ 860,941

#### Restricted cash

Restricted cash consists of funds that are set aside for well refurbishment as well as appurtenant equipment and structure.

#### Investments Authorized by the District's Investment Policy

The table on the following page identifies the investment types that are authorized for the District by the California Government Code. The table also identifies certain provisions of the California Government Code that address interest rate risk, credit risk, and concentration of credit risk.

#### Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

		 	Rer	<u>naining N</u>	<u> 1aturity</u>	(in Months	)	
Investment Type	rying 10unt	Months Less	-	13-24 Ionths		25-60 Months		ore than Months
LAIF	\$ 518	\$ 518	\$	_	\$		\$	
Total	\$ 518	\$ 518	\$	-	\$	_	\$	

## Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. Presented on the next page, is the minimum rating required by (where applicable) the California Government Code and the actual rating as of fiscal year end for each investment type.

	Carrying	Minimum Legal	Exempt From	Rating	g as of Fiscal Ye	ar End

LAIF	\$ 518	N/A	\$	\$	\$	\$518
Total	\$ 518		\$ -	\$	\$ -	\$ 518

NOTES TO BASIC FINANCIAL STATEMENTS June 30, 2015

## NOTE 3 – CASH AND INVESTMENTS (Continued)

## Concentration of Credit Risk

The investment policy of the District contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. There are no investments in any one issuer that represent 5% or more of total District's investments.

#### Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

None of the District's deposits with financial institutions in excess of federal depository insurance limits were held in uncollateralized accounts.

The custodial credit risk for *investments* is the risk that, in the event of the failure of the counterparty (e.g., broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investments. With respect to investments, custodial credit risk generally applies only to direct investments in marketable securities. Custodial credit risk does not apply to a local government's indirect investment in securities through the use of mutual funds or government investment pools (such as LAIF).

#### Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying basic financial statements at the amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

## **NOTE 5 – CUSTOMER DEPOSITS (Continued)**

The hook-up deposits are from customers on a waiting list to connect into the system. Each deposit represents total hook-up fees owed by the customer based on the fee schedule in place at the time of the payment. Additional fees may be required from the customer, based on the current fee schedule, when the utility connection is completed.

Customer meter deposits consist of a \$50 refundable deposit required for each metered customer before any service can be provided by the District.

#### NOTE 6 - LOANS PAYABLE

On July 11, 2011, the District applied for a \$500,000 loan from the United States Department of Agriculture. The loan was approved, and the District began to draw on the loan during the 13/14 fiscal year. As of June 30, 2015, the remaining \$72,264 was drawn out, and the District is required to make semi-yearly payments of \$10,345. Future minimum payments are as follows:
